PROPOSAL

TO: [REDACTED] LES TRESORS LLC

FROM: BLACKMORE ELECTRICAL INC. C-10#864186 (951) 763-5002

SUBJECT: NEW CONSTRUCTION (ELECTRICAL) PROJECT B.E.I. Est. #995, APN 571-270-051, AGUANGA, CA. 92536

DATE: 03/30/2018

We hereby submit specifications and estimates for all electrical as per job walk of 29 MAR 18.

Blackmore Electrical, Inc. will supply and install the following conduit, wiring and equipment accommodating circuits listed below.

- (1) Power to well permit, Riverside County Building & Safety Department.
- (1) Grading exemption permit, Riverside County Building & Safety Department.
- Installation of (1) 100A-240V metered pedestal. Installation to include appropriate grounding.
- +/- 250' Secondary Service conduit to accommodate Anza CO-OP utility feed.
- Supply and installation +/- 20' conduit and wiring for 30A-240V [TYPICAL] circuit to location at well-head.
- +/- 490' conduit and wiring for 40A-240V circuit to well sub-panel.
- (1) New 100A-240V rated NEMA 3R sub-panel to accommodate circuitry and well-head.
- (2) 120V GFI receptacle—utilized for general use power, (1) mounted at metered pedestal and (1) at well sub-panel.
- All utility fees to be paid to CO-OP, by client.
- Initial load calculations for electrical service to be provided by Blackmore Electrical, Inc.
- Temporary address numbers for inspection will be provided.

Blackmore Electrical, Inc. responsible for all trenching and back-fill.

Any additional materials or labor provided are subject to change order costs.

“We power everything”

All work to be completed in accordance with NEC.

Total \$16,000

We hereby propose to furnish material and labor in accordance with the above specifications for the sum of \$ Sixteen Thousand. Payment schedule as follows: \$8,000 upon signing of contract, Progress Payment of \$7,000 upon completed electrical portion, Balance of \$1000 upon completed electrical inspection by Riverside County Building & Safety Department.

NOTE: The existing travel trailer and mobile home must be removed prior to our Electric-to-well inspection. (2) GFI receptacles will be installed AFTER the County inspection.

Respectfully submitted _____
