Hello Tammy,

Currently APN 052-210-026 has 1 water unit on standby. 1 water unit is suffice for a single family dwelling. There is a \$100 water connection fee (meter fee) due for this parcel. Currently it is not connected, that is why it is on standby but once the fee is collected (prior to approving any building permits), and building permits get issued, this parcel will then be able to connect for water.
